

Insulated Bungalow Kennel

Data Sheet

Kumfi Kennels' fully insulated homes provide your pet with the protection they require from the elements and other dangers such as unwanted animals or humans.

The EPS-FR insulated panel design, ensures the maximum comfort and protection for your beloved pet. The perfect addition to your backyard or working dogs' area.

Australia's best insulated pet housing and better still Australian made and owned.

Design features

The Bungalow Kennel is all about the style, this unique design is fully insulated throughout. Not only the roof is insulated, but the walls and even the floor are too!

An eave has been built into the roof for added protection. A dual opening roof and an offset doorway offers further protection from the wind and rain. The dual access roof system enables all areas of the kennel to be easily accessible to aid with keeping your dog's home clean and tidy.

An insulated raised floor assists to keep your pet warm and damp free.

Chew resistant specifications

Made from quality Colorbond steel encasing a block of EPS foam which results in a tough and durable product. The EPS-FR insulated panel design ensures the maximum comfort and protection for your beloved pet.

Cleaning your kennel

The insulated panels have an anti-bacterial coating (Colorbond Permagard), which makes it virtually impossible for bacteria to grow as long as a maintenance schedule is maintained. We recommend our Pet Forte Pro to clean your kennel. It disinfects all surfaces whilst eliminating pet odours instantly. You can even wash your bedding in Pet Forte Pro.

Delivery or Pick-up

Your Insulated Bungalow Kennel will be delivered flat packed with assembly instructions or you may pick it up built from our factory:

Unit 1, 69-71 Richmond Rd, Kingswood NSW 2747 (near Penrith)

Alternatively, we do offer to build it for you on-site at an additional charge.

Accessories

Accessories are available to personalise and add additional comfort to each kennel such as a tough canvas mattress that covers the footprint of your kennel, an additional awning over the door, a name plaque, solar fan, magnetic dog door, caster wheels, adjustable feet or crate door.

Size matters—The most common question that is asked is:

“What size kennel would best fit my dog?”

X-Small, Small, Medium, Intermediate, Large, X-Large or custom built, we will ensure your addition to your family has a house that is fit for a king or queen. All dogs come in different breeds and sizes so there is no exact measurements, however we can offer a general guide only. The kennel you choose should be big enough for your pet to stand up, lie down and turn around.

The general guide is the kennel should be 1—1.5 times the length of your dog (not including the tail). If you live in a warm environment a kennel a little larger for ventilation would be comfortable. If you live in a cooler climate, a more snug kennel would perhaps be cosier. If you are purchasing your kennel for a puppy, it is best to refer to how big it’s parents are, this will give you a good indication of how big your puppy will grow.

KENNEL SIZE	DIMENSIONS	DOORWAY	Colour		
			Surfmist White	Pale Eucalypt & Paperbark	Woodland Grey
SMALL	W L H 700 x 1000 x 840	W H 235 x 350	\$1062	\$1082	\$1100
MEDIUM	W L H 800 x 1150 x 1030	W H 295 x 445	\$1360	\$1390	\$1430
INTERMEDIATE	W L H 900 x 1300 x 1190	W H 320 x 550	\$1645	\$1685	\$1725
LARGE	W L H 1000 x 1500 x 1340	W H 375 x 630	\$1900	\$1950	\$2000
X-LARGE	W L H 1100 x 1700 x 1550	W H 400 x 750	\$2250	\$2320	\$2400
